

## Prenett ABC

Prespotting agents for textile cleaning in solvents. For use with Perc, hydrocarbon solvent, SYSTEMK4 and Cyclosiloxane D5 solvent.

Prenett ABC TM D 04/03

### Characteristics

---

#### **PRENETT A**

Removes stains containing tannin, such as coffee, tea, red wine, fruit and grass.  
pH value: 3.0-4.0.

#### **PRENETT B**

Removes stains containing albumen and starch, such as blood, milk, food residues and perspiration.  
pH value: 9.5-10.5.

#### **PRENETT C**

Removes solvent-soluble stains such as paint, varnish, cosmetics and adhesives.  
pH value: 7.0.

PRENETT A-B-C are designated ONLY for application in solvent cleaning. They do not contain halogenated hydrocarbons.

#### **Advice**

Suitable for all fibres and dyes where the wet colourfastness in water is in accordance with normal textile care standards. In the case of direct dyes on cotton and silk and in all cases where there are any doubts, it is advisable to test the colourfastness before stain removing.

## Application

---

### Prespotting

1. Identify the nature of the stain and moisten sparingly with the appropriate undiluted PRENETT A B or C.
2. Prespotting agents for textile cleaning in solvents.
3. Articles treated with PRENETT A-B-C must be cleaned within 10 – 20 minutes after the chemicals has been applied.

### Advice

Removing of stubborn oil,- fat- or varnish stains the additional use of DEPRIT PROFESSIONAL 4 (White) is recommended. Before cleaning blow off excess product with compressed air.

On sensitive garments flush out PRENETT A-B-C with compressed air directly after the treatment.

### General note

For prespotting in drycleaning, PRENETT A, B, C are the stain removers that can be used universally regardless of the applied solvent. For prespotting in wetcleaning, use DEPRIT PROFESSIONAL.

For postspotting, use only DEPRIT PROFESSIONAL since the products -1, -2 and -3 treat 80% - 90% of all stains successfully. For special demands that exceed this, the products -4, -5 and -6 are reliable problem solvers.

## Storage and dispatch

---

In closed containers the product can be stored for at least 24 months.

Store cool and dry.

Close tightly after dispensing.

Standard packagings	Dispatch unit / pallet
Set 3x500 ml	240
4,5 kg Plastic Canister	150

## 1 Identification of the substance/preparation and of the company/undertaking

- **Product details**
- **Trade name:** Prenett B
- **Article number:** 2227
- **Application of the substance / the preparation**  
Prespotting agents for textile cleaning in solvents.  
For use with Perc, hydrocarbon solvent and Cyclosiloxane D 5 solvent.
- **Manufacturer/Supplier:**  
Chemische Fabrik Kreussler & Co. GmbH  
Postfach 120454  
D-65082 Wiesbaden
- **Further information obtainable from:**  
Abteilung TQM  
Herr Vogel  
+49 (0) 611 9271-175  
Stefan.Kopp@kreussler.com
- **Information in case of emergency:** +49 (0) 611 9271-0

## 2 Hazards identification

- **Hazard description:**  
Xi Irritant
- **Information concerning particular hazards for human and environment:**  
The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version.  
R 38 Irritating to skin.  
R 41 Risk of serious damage to eyes.
- **Classification system:**  
The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

## 3 Composition/information on ingredients

- **Chemical characterization**
- **Description:** Mixture of substances listed below with nonhazardous additions.

### • Dangerous components:

CAS: 577-11-7 EINECS: 209-406-4	Sulfosuccinat-sodiumsalt	Xi; R 38-41	15-30%
CAS: 69227-21-0 Polymer	alcohols C12 – C18 ethoxylated, propoxylated	Xi, N; R 38-50	5.0-15%
CAS: 110615-47-9 Polymer	Deglucopyranose oligomeric C10 – C16 alkylglucoside	Xi; R 41	1.0-5.0%

### • Ingredients according to detergent regulation EC 648/2004

anionic surfactants	15 - 30%
non-ionic surfactants	5 - 15%

- **Additional information:** For the wording of the listed risk phrases refer to section 16.

## 4 First-aid measures

- **After inhalation:** In case of unconsciousness place patient stably in side position for transportation.
- **After skin contact:**  
Rinse with warm water.  
If skin irritation continues, consult a doctor.  
Immediately wash with water and soap and rinse thoroughly.
- **After eye contact:** Rinse opened eye for several minutes under running water. Then consult a doctor.

(Contd. on page 2)

Trade name: Prenett B

(Contd. of page 1)

- **After swallowing:** If symptoms persist consult doctor.

## 5 Fire-fighting measures

- **Suitable extinguishing agents:**  
CO<sub>2</sub>, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- **For safety reasons unsuitable extinguishing agents:** Water with full jet
- **Special hazards caused by the substance, its products of combustion or resulting gases:**  
In case of fire, the following can be released:  
Carbon monoxide (CO)
- **Protective equipment:** Use normal protective clothing.
- **Additional information**  
Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

## 6 Accidental release measures

- **Person-related safety precautions:** Wear protective equipment. Keep unprotected persons away.
- **Measures for environmental protection:** Dilute with plenty of water.
- **Measures for cleaning/collecting:**  
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
- **Additional information:**  
See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for disposal information.

## 7 Handling and storage

- **Handling:**
- **Information for safe handling:** No special measures required.
- **Information about fire - and explosion protection:** No special measures required.
- **Storage:**
- **Requirements to be met by storerooms and receptacles:** No special requirements.
- **Information about storage in one common storage facility:** Not required.
- **Further information about storage conditions:** None.

## 8 Exposure controls/personal protection

- **Additional information about design of technical facilities:** No further data; see item 7.
- **Ingredients with limit values that require monitoring at the workplace:**  
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
- **Additional information:** The lists valid during the making were used as basis.
- **Personal protective equipment:**
- **General protective and hygienic measures:**  
The usual precautionary measures are to be adhered to when handling chemicals.  
Do not eat, drink, smoke or sniff while working.  
Keep away from foodstuffs, beverages and food.  
Immediately remove all soiled and contaminated clothing  
Wash hands before breaks and at the end of work.  
Avoid contact with the eyes and skin.
- **Respiratory protection:** Not required.
- **Protection of hands:**

Protective gloves

(Contd. on page 3)

Trade name: Prenett B

(Contd. of page 2)

- **Material of gloves**  
PVC or PE gloves  
Recommended thickness of the material:  $\geq 0.4$  mm
- **Not suitable are gloves made of the following materials:**  
Leather gloves  
Strong material gloves
- **Eye protection:**

Tightly sealed goggles

- **Body protection:** Protective work clothing

## 9 Physical and chemical properties

### · General Information

<b>Form:</b>	Fluid
<b>Colour:</b>	Colourless
<b>Odour:</b>	Characteristic

### · Change in condition

**Melting point/Melting range:** Undetermined.  
**Boiling point/Boiling range:** 100°C

- **Flash point:** Not applicable.
- **Self-igniting:** Product is not selfigniting.
- **Danger of explosion:** Product does not present an explosion hazard.
- **Vapour pressure:** Undetermined.
- **Density at 20°C:** 0.936 g/cm<sup>3</sup>
- **Solubility in / Miscibility with water:** Partly miscible.
- **pH-value at 20°C:** 9.9
- **Solvent content:**  
**Organic solvents:** 0.0 %

## 10 Stability and reactivity

- **Thermal decomposition / conditions to be avoided:**  
No decomposition if used according to specifications.
- **Dangerous reactions** No dangerous reactions known.
- **Dangerous decomposition products:** No dangerous decomposition products known.

## 11 Toxicological information

- **Acute toxicity:**
- **LD/LC50 values relevant for classification:**  
Acute oral toxicity: >2000mg/kg (Rats)  
calculated from data of constituent parts.
- **Primary irritant effect:**
- **on the skin:** Irritant to skin and mucous membranes.
- **on the eye:** Strong irritant with the danger of severe eye injury.
- **Sensitization:** No sensitizing effects known.

(Contd. on page 4)

Trade name: Prenett B

(Contd. of page 3)

· **Additional toxicological information:**

The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:

Irritant

## 12 Ecological information

· **Information about elimination (persistence and degradability):**

· **Other information:** The product is biodegradable.

· **General notes:**

The surfactant(s) contained in this preparation complies(comply) with the biodegradability criteria as laid down in Regulation (EC) No.648/2004 on detergents. Data to support this assertion are held at the disposal of the competent authorities of the Member States and will be made available to them, at their direct request or at the request of a detergent manufacturer.

The product may not be released into the environment without control.

## 13 Disposal considerations

· **Product:**

· **Recommendation** Dispose of in accordance with Local, State, and Federal Regulations.

· **Uncleaned packaging:**

· **Recommendation:** Disposal must be made according to official regulations.

## 14 Transport information

· **Land transport ADR/RID (cross-border)**

· **ADR/RID class:** -

· **Maritime transport IMDG:**

· **IMDG Class:** -

· **Marine pollutant:** No

· **Air transport ICAO-TI and IATA-DGR:**

· **ICAO/IATA Class:** -

## 15 Regulatory information

· **Labelling according to EU guidelines:**

Observe the general safety regulations when handling chemicals.

The product has been classified and marked in accordance with EU Directives / Ordinance on Hazardous Materials.

· **Code letter and hazard designation of product:**

Xi Irritant

· **Risk phrases:**

38 Irritating to skin.

41 Risk of serious damage to eyes.

· **Safety phrases:**

26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

37/39 Wear suitable gloves and eye/face protection.

## 16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

The information of Items 4 through 8 and 10 through 12 partially refers not to the use and the proper application of the product (see Directions for Use/Product Information) but to the release of larger quantities in the case of accidents and irregularities.

The information exclusively describes the safety requirements of the product(s) and is based on the present state of our experience.

Non-ionic tensides can have varying characteristics and classifications despite same CAS-No.

- **Relevant R-phrases**

38 Irritating to skin.

41 Risk of serious damage to eyes.

50 Very toxic to aquatic organisms.
